<p>Presentation of the EU food law requirements and HACCP principles. The lecture was focused on the issues how to implement the food law in a small enterprise – the aim and the requirement of the key food legislation and its consequences for the food business operator. The Bulgarian expert has presented the results of analysis of the level of the implementation in Bulgarian food companies.</p>	<p>The food safety program was joined with the product safety section, Mr. Markus Stock. It has shown the common and different aspects of general product safety and the food safety. The questions from the audience were focused on HACCP principles application in mass catering providers company and the approval procedures results of food plants producing food of animal origin. The presentation of the Bulgarian expert gave very useful instruction to the representatives of the companies and trainers what is missed and need to be improved in the industry.</p>	<p>The organization of the activity by Emil Rogov was very good. I appreciate especially the initiative cooperation far before the activity in harmonizing the both presentations. The activity helped to create a potential continual cooperation in food area. After a review of Bulgarian food products on the market I found a potential for import of goods from Bulgaria to Slovakia.</p>
